

## Magnetic card payment for vending machine

---

The **Cartadis TDA2** is a reader of magnetic cards suitable for most of the vending machines.

By using the **TDA2** as payment system for your vending machines, you are decreasing problems linked to coin handlings: vandalism, cash collection, counting...

The High Coercitivity technology of the magnetic cards provides you with a very high security while a moderate price.

In standard, it manages serial links, Executive, MDB. It is even compatible with the Executive changers not dealing with the magnetic card in "master" mode (without coin changer) or in slave mode (with coin changer).

### **The TDA2 benefits for your daily uses**

---

- ✓ A wide range of compatible equipments.
- ✓ Reliable and robust unit.
- ✓ Acceptance of both paper disposable or plastic reloadable cards.
- ✓ A use of the vending machine with or without coin mechanism.
- ✓ Hourly, daily, weekly, monthly and staff category subsidies may be featured.

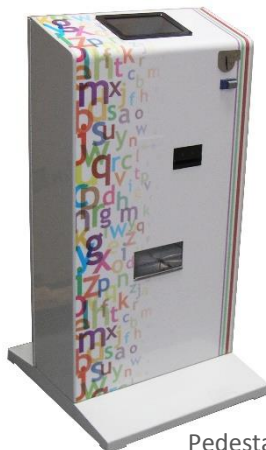

## The cards and compatible units

The **Cartadis** cards are credit-card sized featuring the high coercivity magnetic technology against demagnetization, in order to prevent copies from being made by means of a standard encoder. Two types are available: reloadable cards, or disposable cards (not reloadable).

Cards are supplied blank, without any data and they have to first be recorded in currency or points before use on the **Cartadis TDA2**. A reloadable card can be revalued and reused several times while a disposable card can be loaded only once.

Cards reloading can be achieved directly on the TDA2 or on the **automatic reloader CR9**.

Pedestal version

Wall version

Cards (disposable preloaded) selling may be automated by means of the **automatic dispenser CD6**.
