

## cBot

### A KIOSK TO PAY PRINT, COPY AND SCAN

The cBot is an autonomous kiosk solution to pay in self-service print, copy, and scan. It is simple to use and compatible with almost all MFPs!

Available with:

#### PAY PER USE

Guests don't need to create an account, to use copy, print USB and scan services.

#### PROVIDE CHANGE

Give users change from a self-replenishing change module. overflow coins drop to a secure lock box.

#### ACCEPT BANK CARDS

cBot works with Nayax, bank card terminal. An easy solution to set up and manage your account.

#### CREATE ACCOUNT AND ADD CREDIT

cBot can create a user account and add credit. It works with Gespage and other print management solution with a connector.

#### MOBILE PRINTING

With user account, the users can print directly from their own mobile, tablet or PC through an application or web interface.

#### SMALL AND EASY TO INSTALL

Thanks to its small size (H: 910 mm - 35,8 in W: 325 mm - 12,8 in), cBot is easy to install.

Each cBOT is built to order and can be configured as the site demands.

Options:

- Note acceptor (stacker)
- Bank card terminal (Nayax)
- Receipt printer
- Barcode reader

cBOT comes with the following great features as standard.

- Door alarm and cash collect
- Reports help with security
- Mobile/ e-mail printing with an account
- Print management for unlimited users
- Contactless card reader.
