Cartadis Pay

Cartadis Pay

Finally, private payment by phone!

Refill your wallet with a bank card

One-click payment with Cloud consolidation

CartadisPay is an application that makes smarthphone payment available on your vending machines. Bluetooth Low Energy technology is used to communicate with your vending machine.

Loyalty policy is the strength of this payment mode. Indeed bonuses may be allocated when reloading the wallet. This system is ideal because it is no longer necessary to supply a subscription key that may be lost. The smartphone is becoming the loyalty key …

Set up

Simple to install and low cost, it gives access to credit card payment on terminals with low added value lacking of an Internet connection.
The installation of Cartadis Vend does not need to be performed by a professional. It can be installed and be operational in record time.
The wallet on the smartphone can be customized with the colours of the company using this new method of loyalty.

Optimized yield

By connecting your terminal to a **Cartadis Vend**, you can:
- ✓ Enjoy a credit card payment via CartadisPay.
- ✓ Identify your customers and customise your marketing programmes.
- ✓ Retain customers by developing customised programmes.
- ✓ Improve your systems already in place.
- ✓ Be compatible even on your Offline terminals.
- ✓ Access the transaction history on your Web portal.
- ✓ Speed up the sales process.
- ✓ See your turnover in real time.
- ✓ Decrease cash and the risk of vandalism.
- ✓ …

Simple to set up, **Cartadis Vend** is a small box which makes any vending machine with a coin connection, compatible with CartadisPay.
