CR10

Creation and reload of Gespage accounts for the payment of copies, prints and scans

Credit card option

The CR10 system is an optional equipment of the Gespage solution, it is connected to the server via a TCP/IP network. It provides the reloading and creation of GESPAGE user accounts.

In a Gespage environment, registered users can reload their account **by coin and/or banknote and/or contactless bank card**.

On the CR10, the user can now create an account via the "create account" button either with code authentication or by associating his subscriber card to his new account.

Users are identified by passing a contactless or an ISO magnetic card according to the integrated reader or by entering a Login / Password from the touchscreen.

This account gives the user the possibility to print, copy and scan throughout the fleet of a MFP managed by the **Gespage** solution.

## The CR10 advantages for the user

- ✓ A full **"self-service"** operation of the copy, print and scan service.
- ✓ The creation of a Gespage user account.
- ✓ Reloading of accounts by using coins and/or banknotes and/or contactless bank cards.
- ✓ An intuitive touchscreen that allows the display of the user credit and prices.
- ✓ Quick identification by card or via the touchscreen.
- ✓ The amount of the recharge is free with a possible degressive pricing.
- ✓ Receipt printing when reloading (option).

The CR10 advantages for the administrator

- ✓ An autonomous copy, print and scan service without staff requirement.
- ✓ Programming, from the Gespage server interface, of account reloading rates with possible sliding scale rates.
- ✓ Detailed statistics output from the touchscreen or on a USB key:
    - o sales of the period and total,
    - o amounts reloaded on the accounts,
    - o number of banknotes cashed…
- ✓ Statistics output on printer (option).
- ✓ A welcome screen and a customizable interface to the image of the service provider.

Example of use

The **Cartadis CR10** is especially suitable for a use in schools, public or university libraries
Students can create and reload their account from the equipment and use this credit on all the copiers of the different sites of the organisation.

Technical specifications
